

Prime Minister Justin Trudeau

House of Commons

Ottawa, ON

K1A 0A6

Dear Prime Minister Trudeau,

I am writing to you today to express my complete objection to C21, and in particular Liberal amendment G4 which is essentially a ban on all semi auto rifles and shotguns commonly used by hunters and licensed gun owners across the country.

Canadians were shocked at the underhanded way this was snuck into the bill in the 11th hour as an "amendment", circumventing any study or debate and evading democracy entirely.

This amendment and hunting gun ban will solely impact the legal gun owning community and directly targets hunters instead of focusing on reducing actual crime, violence and gun smuggling.

All this at a time when Canadians are already divided by the political polarization of the Liberal government.

I'll remind you all that the Liberal government was wholly rejected by western Canada and reduced to a weakened minority during the last election.

There is no mandate for this action and the political consequences of this attack will surely be felt in your riding.
